BLACKSBURG VOLUNTEER FIRE DEPARTMENT INTENT & PURPOSE

The Blacksburg Volunteer Fire Department has an annual county budget of \$46,500 in expenses, but it receives \$0.00 of its operating budget income from fire property taxes. There has never been an increase in the rate of property taxes since the District's formation in the late 1900's. Since then there have been significant increases in insurance costs, fuel costs, life safety equipment, maintenance expenses, and operations cost. The District has been relying on donations to cover the difference between its annual expenses and its limited revenues. It is no longer feasible to rely on these sources as the Blacksburg Volunteer Fire Department's Board Members has determined that it is necessary to impose a Fire Tax on all of the landowners within the Fire District to produce enough revenue to meet the district's expenses. The proposed Fire Tax upon landowners within the Fire District would be at the rate of 15 Mills (\$0.015 or 1.5 Cents Per \$100.00) within the Fire Protection District. This tax would be collected by the Cherokee County Tax Collector to be included upon the annual property tax bills to landowners, starting _____.

The Blacksburg Volunteer Fire Department has provided effective, low cost public safety services to the residents, property owners and businesses within the district for over 130 years, while depending on volunteer firefighters to provide outstanding fire protection services. The modest Fire Tax being proposed will ensure the continued viability of this district at a low cost, high benefit for everyone within the fire district.

Dear Residence, Supporters, and Citizens,

The Blacksburg Volunteer Fire Department would like to take this opportunity to thank you all for the generous support our community has given to their volunteer fire department over the years. The members of Blacksburg VFD and its board of directors have found that it is critical to seek a fire tax district in order to maintain and improve emergency services throughout the department's response area. With rising operating cost, aging Life Safety Equipment, and stricter NFPA (National Fire Protection Agency) Regulations has demanded more funding to operate fire departments nations wide and your support plays a vital role in the ongoing effort for your Volunteer Firefighters to provide the fastest, most reliable fire protection and medical services you depend on.

Since 1889, The Blacksburg Volunteer Fire Department was organized to serve the residents and businesses of Blacksburg SC. With a growing residential and industrial population comes with larger area of responsibility and we are always in service 24 hours a day, 7 days a week, 365 days a year. There is no question, we are in very difficult economic times and nevertheless, firefighting and emergency services on a 24/7 basis is a very expensive business. While allocations from the Town of Blacksburg and Cherokee County covers portion of our expenses, creating a Fire Tax District will provide great benefits for the citizens of Blacksburg SC in multiple ways.

As Blacksburg Volunteer Fire Department has recently overcome many obstacles while still providing the greatest fire service protection possible, we still face challenges and disadvantages as the driving cost of emergency services increase yearly. From staffing, training, funding, recruitment and retention, sacrifices are made daily to ensure fire service protection is provided to the citizens of Blacksburg.

We are dependent on the response and generosity of residents like you. Your financial support is what gives our Volunteers the ability to keep responding every day. Within the packet provided you will find document that will provide a clearer point of view and explanation of what the Blacksburg Volunteer Fire Department is attempting to achieve. Therefore, show your support and vote Tuesday August 11, 2020 to help establish a fire tax district within your area. Your support is greatly appreciated.

WE HAVE
LESS THAN 6 MINUTES

Having adequate resources and manpower to keep times below 6 minutes is critical for public safety.

A HOUSE FIRE WILL
DOUBLE
IN SIZE EVERY 30-60 SECONDS

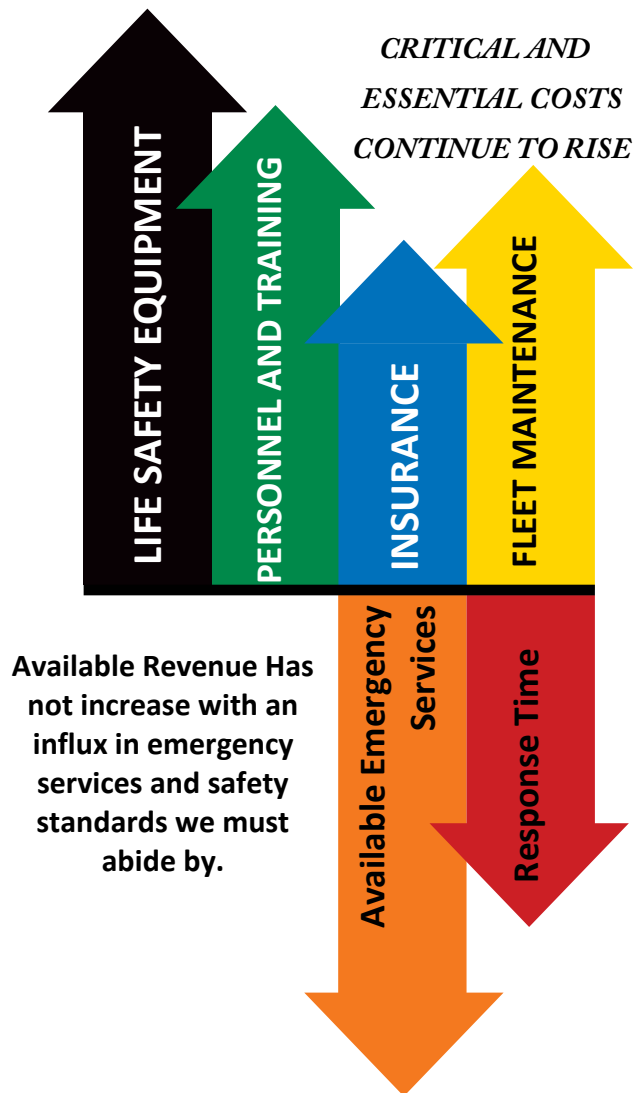

Fire doubles in size every 30-60 seconds. Materials in a room fire can simultaneously ignite (flashover) in as little as 4 minutes. Once flashover takes place, there is little or no chance for survival. The amount of time it takes to receive this help can double.

After 8 minutes, a Non-breathing person Has little chance for Survival.
